The Republicans gained just enough in the elections last week to keep them from declining to make a Presidential nomination next year. It is not likely now that the Republicans will let the election of the Democratic candidate go by default.

One of the objections urged against McDonald for the Presidency is that the Dutch would never vote for a man with a Me to his name. This objection could be overcome by putthe ticket and making it a case of "dog eat dog." Dorsheimer, of New York, would fill the bill, and aside from this rather novel consideration the ticket of McDonald and Docshelmer would combine strength, avallibility and euphony.
